If you are interested in Art, technology, or anything to do with the arts, please check out the interview and my new site on the same topic. I have been wanting to release a website. I have done freelance work for a few years. I wanted to do a personal site about my work and my interest in the arts and art history. Check it out here. I am excited to say that I have a new job. I am the Gallery Director at the Carolina Arts Center in New Bern, North Carolina. I am about to start classes for grad students on the history of early modern painting. This is a great opportunity to share the experience of the school and the gallery with the visiting student. I am very happy to work in a position with such a great team of educators, curators and staff. I am excited to share this experience with the student and the public. The gallery is hosting a work by Richard Wilson on July 24th. I am excited to do my first solo show. I have been working on a few new
