What's New In?

IcePack Builder is a handy and reliable application that allows you to edit the ads packs and the reasons that come with IceOp. The application features a user-friendly interface, allowing you to create new reasons and ads complication free. Requirements: IcePack Builder IceOp IceManagement The program is compatible with Windows XP and later. Other: - Different installers are available, for the following languages: English, French, German, Italian, Spanish, Polish and Russian. - The installer for 32-bit systems only supports IceOp versions 4.0, 5.0, 6.0 and 7.0. I. Installation - Unpack the installer in the selected folder - Run the installer - Follow the instructions II. Product Info - Extract the data files - In the IcePack Builder folder, find the file "ICEBUILD_IMPORT" - If you have not installed the 32-bit version of the program, extract the corresponding.exe file in the folder "32 BIT" (the 64-bit version is named "ICEBUILD_IMPORT.EXE") - Run the imported program - Type "icepack builder" in the search box of IceOp - Follow the instructions - The program will be configured and you will be able to manage your IceOp ads, reasons and modules. - Some tips: - You can edit the ad packs and the reasons in English only. If you want to add a module or a reason in another language, simply insert it in the "Language.xml" file in the "ICEBUILD_IMPORT" folder - You can use several ad packs simultaneously (you need to separate them by commas) - If you want to change the order of the ad packs, simply change their order in the "ICEBUILD_IMPORT" folder - If you want to give the reason a custom name, you can do so by typing it in the "Reason name" field, then simply type it in the "Reason name" field, and press OK. - If you want to give the ad pack a custom name, you can do so by typing it in the "Ad pack name" field, then simply type it in the "Ad pack name" field, and press OK. - If you want to create a new module or a new reason, just click on "Create new reason" or "Create new module" III. Troubleshooting - I can't open the program - If you have installed the 32-bit version, just extract the.exe file in the "32 BIT" folder. - If you have installed the 64-bit version, then open the "ICEBUILD_IMPORT.EXE" file and press F4 to go
